

UTAH EV REPLACEMENT ASSISTANCE

Up to \$10,000 toward a new EV, brought to you with EV Auto

HOW IT WORKS

EVRAP helps Utah residents replace an older gas or diesel vehicle with an all-electric one. Qualified applicants receive \$4,000 to \$10,000 based on household income. Apply through your county health department. EV Auto is an approved participating dealer.

HOW TO GET STARTED

- 1 Pick your EV at [evauto.com](#)**

Browse inventory and note the stock number. Must be fully electric, 8 model years old or newer, and priced at \$48,125 or less before taxes and fees.

- 2 Reserve the car with a \$500 deposit**

Call your nearest EV Auto store. The non-refundable deposit holds the vehicle off the market while your EVRAP voucher is processed. Lehi 801-770-4444 · Woods Cross 801-335-4444
- 3 Confirm your trade-in qualifies**

Gas or diesel (no EVs, motorcycles, RVs, campers, boats). Registered in Utah 1+ year, title in your name with no lien, 2019 or older (or failed emissions within 30 days), drivable. Tip: qualifying vehicles are often available cheap on KSL or Facebook Marketplace. Verify Utah registration history and a clean, lien-free title first.
- 4 Apply through your county health department**

Call Davis County or Bear River first, then visit in person with proof of Utah residency, proof of income (recent federal tax return), and failed-emissions docs if applicable. You'll leave with your EVRAP voucher and a TC-566 junked-vehicle permit. Take photos of the trade-in's exterior and inside the door jamb before you go.

- 5 Bring everything to EV Auto and close the deal**

Bring the full packet to your EV Auto store to finalize. Your \$500 deposit applies to the purchase.
